

Dear FCC,
XM radio is the only source for the highest quality weather and traffic information in my area. The NAB is obviously upset that the consumer no can get complete traffic information to consumers so has decided to try to take away the rights of XM users. What a bunch of hogwash!

Please REJECT! NAB's petition 04-160 and PROTECT THE CONSUMERS RIGHT TO FREE CHOICE of companys that provide a superior product.

Respectfully,

Darren Albert
